THE PRODUCT

The Trough Lighting is surprisingly versatile with a very slimline profile to maximise a minimalistic look, without compromising it's structural integrity.

With the Trough Lighting System, architectural concepts become practical realities posing no restrictions, using the latest manufacturing facilities.

To create the ultimate architectural statement in the widest range of structures, the system offers complete design freedom backed by a comprehensive design service. The scope of the Trough Lighting System for overhead signage lighting is limited only the the designer's imagination.

LIGHTWEIGHT | ENERGY EFFICIENT | EASY INSTALLATION
